

AGENDA
MCKENZIE WATERSHED COUNCIL
Thursday, January 14, 2021
5:00 – 6:30 p.m.

<https://zoom.us/j/94808463133?pwd=bDVNSWdFeWkrT3hoZE9xYWWhWNEhJZz09>

- 1. Approval of Agenda and Zoom Logistics** **5:00**
Facilitator: Jared Weybright
Action Requested - Approve agenda

- 2. Approval of December Meeting Minutes** **5:05**
Action Requested – Approve December meeting minutes

- 3. Partner Announcements** **5:10**
Combined Partner introductions and updates.
Information Only

- 4. MWA Board of Directors** **5:50**
Council Partners are responsible for selecting a 5-person Executive Committee, who also serve on the McKenzie Watershed Alliance Board. Executive Committee/Board members serve 2-years terms and incumbents may be reappointed. The terms of current Board Members Arlene Dietz and Karl Morgenstern, and Wade Stampe terms have expired. Mr. Stampe is planning to step down once a replacement is found. Ms. Dietz and Mr. Morgenstern are willing to continue to serve on the Executive Committee/Board.
Action Requested – Per the Council Charter, form a nominating committee recruit a new Board member (and ideally revise the Resident Partner recruitment process)
Attachment: Council Charter (see pages 4-5 for Executive Committee information)

- 5. Resident Partners** **6:00**
The Council has 8 Resident Partners who serve three-year staggered terms (see Charter pg. 4). Due to the Covid impacted meeting schedule in 2020, there are 6 current Resident Partners whose terms have expired. The Council Charter calls for potential McKenzie resident partners to be recruited through an application process. The Executive Committee/Alliance Board is responsible for reviewing applications and making recommendations for Council approval. Incumbents may be re-appointed for additional terms. The impacts Holiday Farm Fire has created renewed interest in the work of the Council
Action Requested – Council discussion on ideas for a more open, transparent, and inclusive application process for Resident Partner positions. Potentially task the Nominating Committee to review and revise the recruitment process for resident partners.

- 6. Partner Roster** **6:20**
Please review the current Council Roster and update contact information as appropriate. We are particularly interested in updating cell phone contacts and alternate information.
Attachment: Partner Roster

Next Meetings:

- February 11, 2021. *A joint presentation from the MRT, MWC, & SWCD Project Managers tasked with overseeing watershed restoration efforts of the McKenzie River Task Force including erosion control treatments, riparian restoration planting, and long-term planning.*
- March 11, 2021. *March: Holiday Farm Fire impacts and restoration efforts on Weyerhaeuser lands in McKenzie Sub-basin. Mark Rivers Weyerhaeuser Hydrologist*

Contact: Jared Weybright, 458-201-8150, jared@mckenziawc.org, www.mckenziawc.org

PUBLIC COMMENT PROCEDURES MCKENZIE WATERSHED COUNCIL

Adopted February 14, 2013

A general public comment period of at least ten minutes will be placed on each agenda at the beginning of the meeting. During this session, testimony is allowed on any matter relevant to the Council's mission. The facilitator shall determine relevance. The time limit for comments is three minutes, which can be reduced at the discretion of the facilitator. The facilitator also may allow public comment or questions on specific agenda items as they are addressed, with a three-minute time limit. The facilitator has the discretion to end public testimony if needed to make sure the Council completes its business.

Before members of the public may provide comments, first they must be recognized by the facilitator. Individuals should raise their hands to be recognized and provide their names and the organizations they represent if any. The Council will require speakers to fill out a public comment card identifying themselves and the topic they wish to address.

Each agenda should include a statement describing these public comment procedures.

COUNCIL MISSION STATEMENT

To foster better stewardship of McKenzie River watershed resources, deal with issues in advance of resource degradation, and ensure sustainable watershed health, functions, and uses. The Council will accomplish its mission through fostering voluntary partnerships, collaboration, and public awareness.

MEETING AGREEMENTS

- Honor the agenda or modify by agreement
- Candid and constructive conversation
- Ask questions for clarification and understanding
- Monitor speaking time
- Focus on problems (issues) not people
- Avoid sidebar conversations
- Listen carefully to each other; focus on content not style

ROLE OF THE FACILITATOR

- Use meeting agreements for guidance
- Refrain from contributing your ideas (if you feel strongly about providing an opinion on a certain issue, pass the gavel temporarily to another Exec. member)
- Keep the group's attention focused on agenda items
- Make sure everyone has a chance to participate
- Maintain agreed upon schedule
- Summarize to move from one topic to another (but don't try to bias what was just decided by the council)
- Coming to consensus:
 - Highlight where participants agree
 - Identify areas of disagreement
 - Develop a plan for achieving consensus

Meeting Minutes
McKenzie Watershed Council
December 10th, 2020
Virtual Meeting

Present: Carol Ach (Resident Partner), Brian Brazil (International Paper), Becca Brooke (BLM), Dana Burwell (McKenzie Guides), Lara Colley (EWEB), Darren Cross (USFS), Arlene Dietz (Rice Farms), Brandi Ferguson (MRT), Chad Helms (USACE), David Kretzing (Resident Partner), Steve Mealey (McKenzie Guides), Todd Miller (City of Springfield), Karl Morgenstern (EWEB), Ralph Perkins (UWSWCD), Steve Raymen (Resident Partner), Will Rutherford (Resident Partner), Mark Schulze (Resident Partner), Emily Semple (City of Eugene), Wade Stampe (Resident Partner), Aaron Staniak (Lane County), Nancy Toth (EWEB), Kelly Wood (Wildish), Sue Zeni (Resident Partner), Jeff Ziller (ODFW)

Staff: Chase Antonovich, Justin Demeter, Jennifer Weber, Jared Weybright

Guest: Carla Rothenbuecher, Jonas Parker (BLM)

1. Introductions and Approval of December 10th Agenda

Jared Weybright motioned to approve the December 10th meeting agenda. Agenda approved as written, all partners showing consensus level 3.

2. Approval of November 12th, 2020 Meeting Minutes

Jared Weybright motioned to approve the November 12th meeting minutes. Meeting minutes approved as written, all partners showing consensus level 3.

3. BLM Holiday Farm Fire Burned Area Emergency Response Plan

Bureau of Land Management Hydrologist, Jonas Parker, provided an overview of the Burn Area Emergency Response to the Holiday Farm Fire. Like the USFS's work, this plan examines potential detrimental effects resulting from the Holiday Farm Fire that burned on lands managed by the BLM. This work overlaps with the Council's work in 2021, notably rehabilitation of the in-stream project on Deer Creek (lower) and noxious weed monitoring.

Steve Mealey inquired as to why the BLM is not employing techniques such as contour falling and mulching to exacerbate sediment flow on steep slopes. Mr. Parker responded that recent science and data find mulching and contour falling to be ineffective and have a high cost to implement.

4. Partner Announcements and Checks-In

Will Rutherford reported that he created a Holiday Farm Fire scrapbook on the Clearwater Coalition website for those interested.

Dana Burwell reported that the volunteer firefighters started a successful Go-Fund-Me account and have since spent about 65k on those who do not have insurance and plan to continue that work. Folks can also donate directly at the McKenzie Fire Station.

Emily Semple reported that she won reelection and will continue to serve on the Council on behalf of the City of Eugene.

Darren Cross reported that you can get Christmas tree permits for \$5 via recreation.gov. Additionally, the Willamette Valley Visitor's Association has hidden ornaments on the local trails for those interested in trying to find them.

Ralph Perkins reported that the ballot measure to establish a tax base for the UWSWCD was successful thanks to incredible support from local organizations.

Nancy Toth reported that PWP, with help from MWC, UWSWCD, MRT, has been completing post-fire assessments. So far, they have completed 160 and have begun to implement recommendations from the surveying crews. Ms. Toth would also like to extend a thank you to the McKenzie Guides, who facilitated a float last Friday to look for sites that have excess debris and can benefit from the additional cleanup.

Mark Schulze reported that HJ Andrews was extremely lucky, with the facilities suffering minor damage from the HFF. Although the fire burned through two sub-watersheds on the Andrew Forest, it did not affect the creek gauges and other infrastructure. Gauges are back up and running and studying the effects of the fire on sediment and nutrient flows.

Karl Morgenstern reported that EWEB is continuing to monitor and prep for storms sampling with OSU and the PNL lab in Washington to do varying analyses. The last storm that passed through the area was significant, resulting in high levels of metal, nutrients, sediments, and organic carbons in the water. Despite these flows, drinking water was equivalent to pre-fire quality after being treated at the Hayden Bridge facility. Mr. Morgenstern continued that EWEB is currently working with the U of O to look at post-fire naturescaping and provide incentives to landowners to help replant native vegetation. EWEB is currently looking to ask FEMA for roughly \$13 million to fund this ongoing work.

Jeff Ziller reported that there was an incident on Dearborn Island where a landowner was using an excavator in-stream to alter the river. The landowner was doing this for nearly a week with no permit before being shut down by the Oregon State Police and Lane County. Mr. Ziller continued that ODFW has been working with the Oregon State Marine Board, Lane County, McKenzie River Guides, and the Department of State Lands to deal with the debris management in the river corridor. He noted that it is a balancing act to maintain navigation while keeping large wood in the river. Lastly, Mr. Ziller reported that they are working to source fish for stocking as they were forced to release all fish from the hatchery during the fires.

Becca Brooke thanked Jonas Parker for his presentation and for the work that his crew is doing. She continued that BLM plans to give 2,000 logs to the MRT for Finn Rock restoration with additional logs earmarked for the restoration efforts on lower Deer Creek. Additionally, BLM RAC awarded a \$100,000 grant to Finn Rock restoration. Ms. Brooke continued that BLM staff have been working on hazard tree mitigation efforts on BLM land and adjacent areas and have begun planning for salvage. BLM has put out a document for public comment to see what the public wants regarding wood salvage. This can be viewed on the BLM e-planning website.

Arlene Dietz reported that the hazelnut harvest is complete at Rice Farms.

Steve Mealey reported the Guides are working with the McKenzie Masters, and McKenzie Community Development Association to fundraise, already securing \$60,000 to help with the clearing of boat launches and navigation. Mr. Mealey feels that they need to continue raising more money and increase that partnership as it is going to be more necessary in winter.

Todd Miller reported that the City of Springfield wants to get the message out that city staff is working diligently behind the scenes instead of recent events. City Council has been dealing with the loss of the mayor. The City Manager position has finally been filled after 18 months, with Nancy Newton providing great leadership in the current uncertain circumstances. Mr. Miller continued that on the state level, the 2006 version of the temperature TMDL is being reissued, with plans to complete it by April 2023. He continued that they are learning that restoration is crucial to temperature.

Daniel Dietz reported that the MRT was successful in securing a grant from the State Marine Board to make improvements to parking, picnic areas, and ADA accessible trails at Finn Rock Reach.

5.MWC 2021 Work Plan and Budget

Jared Weybright provided a brief overview of the 2021 work plan and budget for the McKenzie Watershed Council. He noted that staff will be engaged in Holiday Farm Fire erosion control work for the foreseeable future, including planting and noxious weed surveys. In addition to HFF work, staff will continue to engage in PWP work while also planning multiple in-stream projects and monitoring in the future. Education and community engagement in 2021 will be dependent on COVID-19.

Meeting Adjourned, 7 pm

Charter

McKenzie Watershed Council

Revised Charter Approved by Consensus September 11, 2014

Purpose

The McKenzie Watershed Council was formed to help address watershed management issues in the McKenzie River watershed, as well as provide a framework for voluntary coordination and cooperation among key interests in the development and implementation of a watershed action program. A primary purpose of the council is to work collaboratively with communities and landowners to develop and carry out voluntary watershed protection, restoration, enhancement, education and community engagement activities.

Vision

Through the McKenzie Watershed Council's Conservation Strategy, the McKenzie River watershed supports exceptional water quality and habitats in balance with human livelihood and quality of life.

Mission

To foster better stewardship of the McKenzie River watershed resources, deal with issues in advance of resource degradation, and ensure sustainable watershed health, functions and uses. The Council will accomplish its mission through fostering voluntary partnerships, collaboration and public awareness.

Relationship to Decision-Making Bodies and Communities of Interest

The McKenzie Watershed Council is an advisory body to established decision-making bodies and communities of interest. As such, the Council makes recommendations concerning the protection, restoration, and enhancement of the quality of the McKenzie River watershed.

The agencies, organizations, and interests represented on the Council are not obligated to adopt or carry out the recommendations of the Council but will give due consideration to the recommendations and take actions they consider appropriate. These agencies, organizations and interests will report back to the Council on any actions taken in response to Council recommendations.

The Council welcomes and will respond to requests for advice on actions affecting the watershed that are proposed by local, state and federal agencies, organizations, and/or interests.

Council Partners will keep their respective agencies, organizations and interests informed about the work of the Council and will also bring their concerns to the Council.

Objectives

1. Establish a framework for coordination, cooperation and citizen involvement to ensure an appropriate level of participation in the Council's work;
2. Improve communication among affected private individuals (landowners), interested citizens and representatives of local, state and federal agencies;
 - Publish and distribute a "State of the Watershed" report periodically (currently every 5 years).
3. Provide a forum for hearing, considering and acting upon problems and conflicts related to the Council's mission;
4. Develop an integrated, comprehensive watershed management program;
 - Determine the current condition and uses of the watershed;
 - Identify the desired condition and uses of the watershed;
 - Prepare a proposed watershed action program, including recommended policies and actions, to achieve and maintain the desired condition; and
 - Monitor implementation of the watershed action program.
5. Evaluate program effectiveness, ensure accountability and communicate results;
6. Promote ongoing monitoring of the health of the McKenzie River Watershed; and
7. Promote partnerships and secure funding to implement the Council's Work Plan.

Cooperative Partners

The Council's membership will include broad and diverse representatives of the range of geographic and natural resource interests in the watershed, as well as public and private interests. The McKenzie Watershed Council shall attempt to include representatives from the following interests: local government, water utility companies, McKenzie Valley residents, resource users (e.g., agriculture, private timber), industrial forest land managers, major water consumers, environmental advocates, state government and federal government. A majority of Partners shall be local citizens, including local officials or their designated representative. Ideally, the Council will have representation from 20-28 diverse stakeholder groups and residents. The following is a list of interests and organizations that could be considered for Council composition. This list is not intended to limit participation, and the Council recognizes that newly formed groups could be approved for partnership by consensus and that existing groups sometimes dissolve and will be removed from the Council.

Interest	Agency/ <u>Representative</u> Organizations	<u>Representative's</u> Position
Local Government	Lane County, City of Eugene, City of Springfield, City of Coburg	Elected official or staff designee
Water Utility	Eugene Water & Electric Board, Springfield Utility Board, Community Water Associations	Elected official or staff designee
Recreation Provider	McKenzie River Guides Association	Officer
Mohawk Valley resident	Mohawk Watershed Partnership	Board member
McKenzie residents	At-large stakeholders	Residents*
Industrial forest	Weyerhaeuser, <u>Rosboro, Giustina</u> (or similar)	Land use manager
Resource users	Upper Willamette SWCD	Board member
Major water consumers	International Paper, Kingsford (or similar)	Plant manager
Environmental Interests	McKenzie/Cascade Family Flyfishers, Oregon Wild, Audubon, Izaak Walton League, Sierra Club, Obsidians, Northwest Steelheaders, Oregon Trout	Officer(s)
State Agencies	Department of Fish and Wildlife, Department of State Lands, Oregon Department of Forestry, Department of Environmental Quality	Manager
Federal Agencies	Bureau of Land Management, Forest Service – Willamette N.F., Army Corps of Engineers	Manager
Land trust	McKenzie River Trust	Managing director
Formal educator	Springfield, McKenzie or Mohawk Schools	Teacher or administrator
Business interest	McKenzie or Springfield Chamber of Commerce or Convention and Visitors Bureau, Local farmers and ranchers, Aggregate Industries	Officers and stakeholders

*McKenzie residents include citizens with diverse interests from the various communities/areas of the McKenzie watershed.

Resident Partners serve three-year staggered terms. Incumbents may be re-appointed for additional terms. Partners and staff will solicit potential McKenzie resident partners. Applications will be reviewed by the Executive Committee, and the Executive Committee will recommend candidates for Council approval.

Partners representing agencies and organizations shall serve at the pleasure of their respective agencies and organizations. These Partners are encouraged to designate an alternate that will participate on the Council in the Partner's absence. The Council will act to replace Partners who resign or are unable to continue serving on the Council. The Council will strive to maintain continuity and the balance of interests by giving preference to representation from the same agencies and organizations. The Council will request the agency or organization to nominate a replacement representative. If the agency or organization is unable or unwilling to do so, the Council will seek representation from another agency or organization of the same community of interest.

The Council may add agencies, organizations or interests as Council Partners upon nomination by an existing Partner and approval by the Council.

Organization

The Council may select a chair or co-chairs to serve as spokesperson(s), advise the Council coordinator or other Council staff on Council agendas, call and manage Council meetings, enforce ground rules, and perform other tasks assigned by the Council. Chairs will serve one-year terms and must be members of the Executive Committee.

The Council shall establish and appoint members to an Executive Committee and will delegate certain duties to that Committee. These duties shall include:

1. Provide direction to and evaluate the performance of the coordinator;
2. Assist the coordinator in setting Council meeting agendas;
3. Recommend funding sources and develop project proposals for Council approval;
4. Decide minor administrative, budget and project policies on behalf of the Council;
5. Review periodically the Council's work plan and budget and ensure work plan objectives are being met;
6. Facilitate Council meetings and other meetings as needed;
7. Serve on the McKenzie Watershed Alliance Board of Directors;
8. Recommend plans, policies and procedures for Council approval; and
9. Ensure that minutes of Committee meetings are prepared and provided to the Council on a regular basis.

The Executive Committee should include five members, and members shall represent the diversity of interests on the Council to the greatest extent possible. Members shall serve two-year terms and may be re-appointed. Three months in advance of the expiration of the Executive Committee's term in office, a three-member nominating committee will be formed, including one member of the Executive Committee and two other Council Partners. The nominating committee shall make a recommendation for a new Executive Committee at the Council meeting preceding the expiration of the outgoing Executive Committee's term.

The Council may select other officers as needed. The Council may form committees of its own Partners, and task groups that include individuals not on the Council to perform certain functions or focus on specific issues. If a committee is considering an action that is outside the scope of an approved budget, action plan or work program, the committee must get Council consensus on amending the budget, action plan or work program prior to proceeding. If a committee has any questions about whether an issue is outside the approved budget, action plan or work program, Council consensus will be sought. All requests for proposals will require Council consensus.

As funding allows and as approved by the Council, Council staff can include a coordinator, project manager and other positions. Partner agencies, organizations and interests may provide staff assistance when requested by the Council staff or the Council. The Council can also decide to provide funds to sub-watershed groups and programs that fit the Council's goals and mission.

Procedures

A. Decision-Making

A quorum is required to make a decision. A quorum is a majority of the current Partners on the Council. The Council will strive to achieve consensus whenever a Partner recommends an action. A consensus decision is one that will not be blocked by any Partners. When a decision is requested, Partners will display the numbers 1 through 7 to indicate their level of consensus as described below.

The levels of consensus include:

- 1 = *Wholeheartedly Agree, will take a lead in the follow-up***
- 2 = *Good Idea, can bring resources toward***
- 3 = *Supportive, but not likely to provide resources***
- 4 = *Reservations, but will stand aside***
- 5 = *Serious Concerns, but can live with the decision***
- 6 = *Cannot Participate in Decision, will work to block it***
- 7 = *Abstain****

*Abstention: Partners may choose to abstain from indicating their level of consensus by indicating Level 7. Partners are highly encouraged to express their position as to level of

agreement or opposition on any issue. Partners should abstain in circumstances when there is a direct personal or financial interest. When appropriate, Agency Partners may abstain when the Council is considering a recommendation to their agency. Partner abstentions do not affect the ability of the Council to reach consensus.

If a consensus is not achieved, and if time allows, the Council will appoint an ad hoc committee composed of Partners on all sides of the issue to try to achieve consensus. The committee will report back to the Council at the next meeting. If the issue is time-sensitive, the Council will make a decision using the consensus minus one process. For actions on external matters in which consensus is not attained, the Council may decide to submit a recommendation or comment by reporting the consensus level achieved.

The following criteria may be used to determine if a Council consensus decision is appropriate:

- The issue affects the McKenzie Watershed;
- The Council has the potential to influence how the issue is handled;
- The issue could not more appropriately be addressed by another forum;
- Resources can be identified to assist the Council in addressing the issue; and
- The Council's decision would be timely.

Rapid Response for Advisory Actions: In most cases, decisions will be made at regularly scheduled Council meetings. In some cases, there may be a need to provide a Council comment to other entities on relevant issues under a short time frame without a Council meeting. The staff will advise the Executive Committee of a potential advisory action which has a deadline prior to the next Council meeting. The Executive Committee will determine if the Council should provide a comment, and if so, will direct the staff to poll the Partners by e-mail or telephone with a request to respond by a date certain. If there is a consensus of the responding Partners, the staff will send a comment on behalf of the Council.

B. Participation

- The Council will hold regular meetings and follow the provisions of the Open Meetings Law. Meeting frequency is monthly, with the exception of July and August. In cases of inclement weather meetings may be canceled or postponed. At least ten minutes will be set aside at the beginning of each meeting for public comment.
- Partners will notify the Council coordinator or Council chair if both the Partner and his/her alternate will be unable to attend a Council meeting.
- If the Partner and his/her alternate are unable to attend a meeting, the Partner may provide written comments or ask another Partner or the Council coordinator to represent his/her position on a particular issue.

- Partners will notify the Council if he/she must vacate his/her position.

C. Behavior

- Partners will treat each other with respect, will not monopolize meeting time, and will listen to and try to understand one another's views. Partners are discouraged from placing blame for past practices.
- Partners will search for opportunities to develop group solutions and to resolve conflicts.
- Partners will strive to adhere to the Charter and will be responsible for its enforcement.

D. Amendments

A Council Partner may propose amendments to the Charter. Proposed amendments will be placed on the agenda as an action item and are subject to the consensus decision-making process. Amendments will become effective at the meeting following the decision.

E. Process and Criteria for Adding Partners

Potential Partners can be nominated by Council Partners or identified by staff. Staff will interview the applicants with the following questions:

What are the interests of the applicant regarding the McKenzie River watershed management program?

How might these interests affect and be affected by Council decisions?

How would the addition of the applicant benefit the work of the Council?

Is the applicant willing to follow the Charter?

The Executive Committee will review the responses to the questions, determine whether the interests of the applicant are consistent with the mission and goals of the Council, and make a recommendation to the Council. The Council will accept new Partners by consensus.

F. Process for Removing Partners

A Partner or individual representative representing a partner organization may be removed for the causes stated in these bylaws only with the approval of the McKenzie Watershed Council through a consensus vote. A Partner or individual representative representing a partner organization may be recommended for removal for the following causes: repeated failures to attend Council meetings, failing to fulfill the duties required by the McKenzie Watershed Council, or intentional acts or omissions that a prudent person could reasonably have foreseen would seriously damage the reputation or interests of the McKenzie Watershed Council.

A Partner may request termination of the right of membership of another member by submitting a request in writing that includes the reasons for termination to the Coordinator or the Chairperson who shall present it at the next scheduled Executive Committee meeting to be considered for action at the next regularly scheduled Council meeting.

The Partner or individual representative representing a partner organization shall be given written notice by first class or certified mail of the pending action and the reasons for the requested termination at least 15 days before the Executive Committee. An opportunity shall be given the Partner or individual representative representing a partner organization to be heard by the Executive Committee and the Council orally or in writing. A written response from the member must be received not less than five days before the Executive Committee Meeting.

The recommendation of the Executive Committee of the termination shall appear on the Council's meeting agenda.

Membership may be terminated by the McKenzie Watershed Council by a consensus vote. The party initiating the process and the individual whose membership is under consideration for termination shall recuse themselves from voting. The decision of the Council shall be final and shall not be reviewable by any court.
